

PROFILE

Problem-solver with 6 years of experience across manufacturing, tech and banking. Proven track record of successfully implementing change, building processes and automations, and leading sales and operations. Developed and led Inkbit's business model shift from selling equipment to selling manufacturing services. Manages a team of 4 across sales and operations.

Engineer with an M.Sc. in Management and Economics of Innovation from a top engineering university in Sweden.

PROFESSIONAL EXPERIENCE**[Inkbit](#), Boston, MA**

July 2020 – Present

Sales and Operations Lead:

June 2025 – Present

Sales Lead:

May 2024 – June 2025

- Led a business model shift from selling equipment to selling manufacturing services, including building a pricing algorithm from a ground-up cost model. The new business unit grew 300% each of the first 2 years, reaching 1M USD in sales in the second year.
- In charge of sales and operations for a 1M USD per year contract manufacturing business unit, including managing a team of 4 across sales, marketing and operations. Introduced daily standups and built comprehensive dashboards utilizing AI to streamline decisions, which cut late orders from 30% to 5%.
- Organized weekly executive business reviews, presenting KPIs from 8 SQL-built dashboards to guide strategic and tactical decisions. This led to refocusing sales efforts toward elastomers instead of rigid plastic, including exhibiting at two industry-specific trade shows to drive market awareness and discovery.
- Managed and sold into strategic accounts, including building a partnership with one of the largest companies in the world that grew to over \$750,000 in sales.
- Built 7 automations using Make.com covering the order-to-delivery workflow (routing, acceptance emails, packing lists, shipping labels, tracking and NPS) and led the CRM migration from Salesforce to HubSpot, cutting manual handling across the team.

Business Development Manager:

July 2020 – May 2024

- Led strategy and execution of building a sales partner program. Onboarded 10+ sales partners in North America, Europe and Asia, which doubled the number of leads.
- Managed operations of the sample parts program. Collaborated with sales, engineering and marketing to develop four new sample parts, one new marketing insert and one box.
- Built a Salesforce environment from the ground up, including building custom objects, making dashboards, setting up Propel and connecting forms from the website which cut the lead response time in half.

[Carnegie](#), Stockholm, Sweden*Investment Banking Intern*

March 2019 – August 2019

- Led modeling and data visualization of a consumer loan company's total outstanding loan book of 100,000 plus rows of data. Data presented to senior members of the lending team leading to approval of 5 MUSD loan.
